WATCH FOR SPECIAL DAY OF
TALKIES
You'll Hear Them Talk ! You'll See Them Act !
It won't be long now

FORMER PASS RESIDENT DIES AT NEMISKAM

Death has removed another of Alberta's old-timers in the person of George Mills, aged seventy-six years, who died at Nemiskam on Wednesday of last week.

For a number of years past he has occupied the position of postmaster at Nemiskam.

Born in Leeds, Yorkshire, England, he came to Canada in 1887 and lived in Alberta forty-two years. He was in the Egyptian campaign in 1882 and was also a member of the Canadian Legion, Lethbridge branch. He lived in the Crows' Nest Pass at one time, leaving here shortly after the Frank Slide. He is survived by his widow, one daughter, Mrs. Butterwick, and five grand-children.

The remains were laid to rest at Nemiskam on Thursday afternoon.

DISPUTE RESULTS IN STABBING

A stabbing affray followed an argument over a rummy game at the Corner Club room on Tuesday night, when an Italian miner named Mike Marcial was stabbed several times by Luigi Denaristi, a local shoemaker. Marcial was rushed to the Stewart hospital, where he is reported recovering, while Denaristi was taken into custody by the police. He has since been allowed out on bail, pending preliminary trial.

BELLEVUE REBEKAHS CELEBRATE ANNIVERSARY

Members of Ray of Hope Rebekah Lodge, together with brother Oddfellows and a large number of friends, gathered in the L.O.O.F. hall at Bellevue on Wednesday night of last week, to celebrate the tenth anniversary of the institution of their lodge.

A closed regular meeting of the lodge was held at 8 p.m., following which the crowd gathered for the open session and ceremony. The hall was suitably arranged for the occasion. Twelve hands of court which were played, prizes being won as follows: Ladies' first, Mrs. R. Shevels; consolation, Mrs. John Shevels; gent's first, Mrs. Fred Padgett; consolation, Mr. Fred Beal.

Tables were spread, laden with tempting viands, to which upwards of fifty people did ample justice.

Following the supper, Bro. Fred Padgett, as toastmaster, proposed the toast to "The King," responded to by the singing of "God Save The King." The toast to "The Order" was responded to by Rev. Bro. Wood, who briefly outlined the history of Oddfellowship and impressed upon his hearers the great good that could result from the aims and ideals of the Order and the importance of being good citizens through being good Oddfellows and Rebekahs.

Bro. John Shevels delivered a very interesting address on his personal knowledge of Oddfellowship and what it is doing to help promote good citizenship and uplift humanity.

A programme of readings, songs, etc., followed, the gathering dispersing at 2 a.m. with a "Home Sweet Home" waltz.

Blairmore school has again succeeded in winning the governor-general's bronze medal for highest marks obtained in the Macleod Inspectorate in Grade VIII. departmental examinations, the winner being Alex. McDowell, son of Mr. and Mrs. Samuel McDowell, who made an average of 90.2. Alex. was a pupil of Miss Catherine Chrysal. He hasten to congratulate this young lad on his progress. The honor was attained by Miss Ethel Cartwright a couple of years ago.

A council of the Knights of Columbus will likely be instituted at Milk River.

VETERANS HONOR J. S. STEVENSON

Funeral services for James S. Stevenson, aged 45 years, who died in Hanna, Alta., recently, were conducted from Armstrong's funeral chapel yesterday afternoon, and were marked by a large attendance of Calgary friends of the deceased, fellow veterans and fellow members of the local Elks' organization, the latter attending in a body.

The service at the chapel was conducted by Rev. George A. Dickson, and the pallbearers were J. M. Miller, J. E. Hopkins, Harry Ford, E. E. Rickard, Jack B. Shaw and Percy Powell. There were a large number of floral offerings.

The burial service at Burnside cemetery was under the direction of the Calgary Elks' Lodge. Rev. Norman Plummer, gave the committal and Fred Eldridge sounded the Last Post.

The late Mr. Stevenson was very well-known among the veterans of Calgary as well as in business and sporting circles throughout the province. The attendance at the funeral of the remaining five or six members in Calgary of the original Princess Patricia's Light Infantry, brought to mind that deceased served with that unit overseas, and was said to have been the fifth man to sign up in this city. Death was attributed to the effects of poison gas, suffered in the war—Calgary, Alberta, Oct. 12.

Referring to his death, the Hanna Herald says: "He is survived by his wife, of Hanna, and two sisters residing in Arbroth, Scotland. He was married in September, 1920, to Miss Maude Edwards, sister of Percy Edwards, of Carbon; Marcus Edwards, of Turner Valley, and Mrs. G. M. Lambertus, of Calgary. Prominently identified with the B.P.O.E., he took an active interest in the various benevolent undertakings sponsored by that order. He made many friends in Calgary, as well as at Blairmore and during his residence here. He was a native of Arbroth.

WYSE—BROWN WEDDINGS

The marriage took place at the home of the bride's parents on Thursday evening last at 6.30, of Miss Vera, daughter of Mr. and Mrs. George Brown, to Mr. Frank Wyse, of Hamilton, Ontario.

The ceremony was performed by Rev. G. H. Villet, of Pincher Creek, in the presence of the members of the household and a number of friends. The bride was attended by her younger sister, Miss Rita Brown, while Mr. William Goodwin of Bellevue, supported the groom.

Following the ceremony, a sumptuous wedding supper was served, following which the young couple embarked by the evening train for Hamilton, where they will make their home.

Those present included: Rev. and Mrs. Villet; Mr. and Mrs. R. Whippett, Mrs. W. Higginbotham, all of Pincher Creek; Mrs. Robert Young, of Granum; Miss A. Cameron, of Saddle Lake; Mr. and Mrs. B. Sensier, Mr. Freeman, Mrs. Fines, Mr. W. Goddard and Mr. William Goodwin.

Vincent Colagrosso and Jim Chalmers, of Coleman, sang several vocal refrains with Miss Rae, accompanied by Altermatt Orchestra, at the Moose dance, Blairmore, last Saturday night and received tremendous encores from the large crowd of dancers who seemed plumb full of pep from start to finish of the dance, especially so after the arrival of Frank Johnson and his fiddle.

The concert given in the United church on Friday evening last by the Georgian Singers and Entertainers was largely attended and very much enjoyed.

Caught Disease On the HANDS!

Skin disease threatens us every day. Invisible germs of blood poison, eczema, etc., are waiting to infect the least cut or sore place. The money you use carries germs—you get them on the handles, rails and straps of the trains and street cars, and in a score of other ways. Solely through Zano-bak, Mr. Henry C. Davis, of South 17th Street, Kansas City, U.S.A., has just escaped a virulent type of eczema, contracted, he suspects, through use of public towels.

"I had medical advice," he says, "tried in addition all sorts of so-called eczema remedies, without finding the hoped-for relief. Zano-bak treatment soon gave positive results. It took away the painful irritation and quickly purified and healed the deep troublesome sores."

WORLD HAPPENINGS BRIEFLY TOLD

The National Research Council has been asked to appoint an associate committee on weed control research.

The Earl of Harewood, father-in-law of Princess Mary, died at his ancestral estate, October 6. He was 83 years old.

Admiral Sir Richard Phillimore, first and principal naval aide de camp to His Majesty, has been placed on the retired list. Vice-Admiral Sir H. W. Richmond is promoted admiral.

Lady Schultz, wife of the late Sir John Christian Schultz, former Lieutenant-Governor of Manitoba, and Senator, died October 7, at Winnipeg.

R. B. Morley, general manager of the Industrial Accident Prevention Association, Toronto, was elected Canadian representative on the executive committee of the National Safety Council at Chicago.

Canada and the other British Dominions will be represented at the proposed five-power naval disarmament conference in London, England, next January, according to present plans.

A crowd of several thousand persons, at Ottawa, saw Baker Diehl, 22-year-old parachute jumper, plunge 2,900 feet and fall within 100 feet of them when his parachute failed to open.

Sir Jagdish Bose, world famous Indian scientist, believes he has discovered a drug, extracted from a plant found in the Himalayan Mountains, which would revive permanently victims of heart failure.

Stepping out of a plane after a short flight at Red Wing, Minn., Mrs. Ray Ahrens, 30, of St. Paul, walked into the whirling propeller of an other ship and was killed. The pilot of the plane, Max Conrad, 27, was seriously injured trying to save Mrs. Ahrens.

Test Was Successful

Value Of Instruments To Overcome Perils Of Flying Through Fog Is Proved

Completion of the first airplane flight with a cockpit entirely shut off from light was announced by Harry F. Guggenheim, president of the Daniel F. Guggenheim Foundation for the promotion of Aeronautics, as the final successful test of a group of instruments designed to overcome the perils of flying through fog.

Lieut. James H. Doolittle, seated in the darkened cockpit, took off from Mitchell Field, and flew along the path of a directing radio beacon to a safe landing.

Her Father — You have been a very naughty girl and I'm going to spank you.

Little Elsie—Would you strike a lady?

Surplus oil, for which there is insufficient storage, can be pumped back into the earth to remain there for future use.

Fall Colds

Beware the cold that starts in the fall and hangs on all winter. Use Minard's internally and externally to drive it away.

X-Ray in New Role

As Aid To Manufacturing and Notably in Aviation

The X-ray, an instrument of physicians and surgeons, has become a tool of the foundry industry and its benefits to the metal industry have been of considerable aid to manufacturing, notably in aviation, according to the statements of W. L. Fink, metallurgist, before the National Metals Congress at Cleveland.

The shadowgraphs of the X-ray show shrinkage, blow holes, pin holes porosity and other imperfections in castings which never would be discovered by other means of examination. He asserted. As a consequence, the metal frames of airplanes can be thoroughly tested before construction of the plane is completed, a safety device that would be available in no other way.

By the same means castings generally have been improved. Fink declared.

Men Can Be Placed

Demand For English Youths Trained For Canadian Farm Work

Immigration officials, at Ottawa, are confident places will be found for all the 3,000 young men to be trained in England this winter for work on Canadian farms. Placements will be made next spring by the Dominion and provincial authorities in accordance with demand in various parts of the country. Already this year, it was explained, 3,500 trained men from overseas have taken up work on farms here. Last year the number was about 1,400.

DAIRYING COAT DRESS

A jaunty little model for girls of 8, 10, 12 and 14 years is illustrated in feather-weight tweed in beige and brown. A brown suede belt denotes fashionable raised waistline. The collar is of plain beige woolen which is repeated in turn-back cuffs.

It is double breasted, trimmed with huge beige and brown buttons. The entire effect is smartest ever. It is made at a small outlay, and practically only side and shoulder seams to join. The fronts are underlaid and rolled into revers with the attached straight collar.

Style No. 713 will instantly appeal to the girl with sophisticated taste.

It is most attractive too in navy blue wool crepe with vivid red suede belt and matching bone buttons with collar and cuffs of white crepe de chine or of white pique.

Kashmir printed wool jersey in Copenhagen blue coloring trimmed with harmonizing plain blue jersey is very smart.

Plain wool jersey, homespun, tweed printed silk, crepe de chine, velvet, cotton pique, linen and printed cotton, broadcloth and selections. Pattern price 25 cents, in stamps or coin (coin is preferred). Wrap coin carefully.

You Must Have Sugar

Sugar is one of the much needed elements in a balanced diet.

WRIGLEY'S supplies sugar in a convenient way. The flavor is an extra delight.

Then too—you know you aren't adding weight. Sugar is a fuel that burns up needless fat.

Canada's Road Mileage

Highway Construction and Good Roads Program Receiving Much Attention

Partly to accommodate the rapidly increasing tide of tourist traffic, much of which travels by automobile, the construction of highways and good roads throughout Canada continues to advance. In the past three years the mileage of surfaced roads in the Dominion has been increased from 47,411 miles to 64,121 miles, including improved and unimproved earth roads.

The total mileage of highways open for traffic in all parts of Canada, was at the end of last year, 381,977, or a mileage that would girdle the earth over 15 times.

Last year 8,610 miles of highways were constructed of which 2,450 miles were earth, and 6,160 surfaced. The total expenditure on construction was \$38,912,029, while a further sum of \$18,963,281 was spent on maintenance. The year's work included 541 miles of permanent surfaced highways in bituminous macadam, bituminous concrete and cement concrete construction. Water-bound macadam totalled 417 miles and gravelled highways 5,198 miles.

There were 1,076,819 motor vehicles registered in Canada in 1927, which was an increase of 331,147 over the previous year. Passenger automobiles registered amounted to 921,585, an increase of 100,028 over 1927. On a per capita basis, there was one passenger automobile per 10.5 persons in Canada, and one motor vehicle including trucks, motor cycles, buses, etc., per 9.0 persons.

Only three countries had greater densities than Canada, the United States, with 5.1, Hawaiian Islands, 7.9, and New Zealand, 8.0 persons per motor vehicle.

The response in individual cases, he states, "varies from a negative result to apparent complete recovery."

In treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

"The response in individual cases," he states, "varies from a negative result to apparent complete recovery."

Artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

Preparing For Next Dominion Census

Questions Being Considered and Plans Are Under Way

The questions which will be asked the people of Canada at the next general census are now under consideration by the Dominion Bureau of Statistics. The present plan is to take the census beginning on June 1, 1931, and all the questionnaires to be used must be adopted by the governor-in-council. In view of the immense amount of printing and organization required, the initial plans are well under way.

The question of whether people should be classed Canadians or according to the nations from which their ancestors came, will not likely prove so troublesome in the case of the census as it frequently has in the case of Dominion and provincial government surveys. The names of every man, woman, boy and girl in Canada will be taken down. They will likely be listed as Canadians, British subjects, those who are not Canadians, and allies. Canadians will include all those born in Canada, all other British subjects who have lived in Canada long enough to acquire a domicile here, all persons naturalized and their children.

In addition to the census of the humans, the census of the horses and the cows and the sheep and the hen will be taken in an agricultural questionnaire.

The treatment of general paralysis, his report states, "by induced malaria, offers more promise of success than any other form of treatment that has been given extended trial."

In treatment, which includes either artificial malaria inoculation or exposure to malarially infected mosquitoes, has been found, says Dr. Meagher, to increase the length of life, to render existence more natural, and to produce improvement in the physical condition and the mental state.

SUNDAY SCHOOL LESSON

OCTOBER 20

USEFUL WORK A CHRISTIAN DUTY

Golden Text: "If any will not work, neither let him eat."—2 Thessalonians 3:10.

Lesson: Genesis 2:15; Exodus 20:9; Nehemiah 6:3; John 5:17; 9:4; Acts 20:33-35; 12 Thessalonians 3:6-12; Ephesians 4:28.

Devotional Reading: Psalm 81:9.

Explanations and Comments

God Ordained Work, Genesis 2:15.—In the story of the Garden of Eden, we are told that God placed man there to cultivate and care for it. The work was waiting for him.

"With the Christian conception of God, we cannot believe that work has been made a human necessity merely to supply the body with food and for all other material things. With our creative work God could have met the material needs of all mankind and for all other material things by-products. This is shown by the moral and intellectual evils which follow and degrade those who yield to absolute idleness. Civilization is at its highest in those lands where the climate is most productive to labor. Where work is declined, it must be accepted."—Thomas Pridy.

Man Must Work, Exodus 20:9.—We think of the Fourth Commandment as directing the keeping of the Sabbath, and often forget that it is first of all directed to labor on the six other days. It enforces the six days' work as well as the seventh day's rest.

"No man is born into the world whose work is not born with him. There is always work.

And tools to work withal, for those who will. And blessed are the horny hands of toil."

The Prior Importance Of Work, Nehemiah 6:3.—Four times Nehemiah's enemies, Sanballat and Geshem, sent an urgent request to him to meet them for a conference on the Plains of Ono. That they wished to do him harm, of course, Nehemiah could not be so easily duped, but what a great answer was his: "I am doing a great work, so that I cannot come down: why should the work cease (as I undoubtedly would, without his directing, impelling power), while I leave it and come down to you?" His answer would have been the same had the invitation been for pleasure or his own advantage in any way. He stood in the path of duty, and there for the very life of God's will and he would not budge an inch. The greatest influence of his work of rebuilding the walls of Jerusalem, the priority of his demands to all things else, filled his mind and heart.

Woman Salvages Shipwreck, Mrs. Cook of Glasgow, Scotland, is believed to be the only woman salvager in the world. She helped raise the German fleet sunk at Scapa Flow, in 1919. In the five years she has added in raising 26 destroyers and two battle cruisers.

Recipes For This Week (By Betty Barclay)

ORANGE SWEET PICKLE

4 oranges.

2 cups sugar.

1½ cups vinegar.

1 teaspoon whole cloves.

1 teaspoon stick cinnamon.

Peel oranges, removing all white membrane; cut into thick slices; steam until clear and tender. Boil sugar, vinegar and spices for 25 minutes. Add fruit and simmer slowly for one hour. Place in sterilized jars and seal.

QUINCE AND APPLE MARMALADE

Wash quinces and remove blossom end. Cut fruit in small pieces, add sufficient water to cover, and cook until soft. Rub through sieve and combine the pulp with an equal amount of tart apple pulp. Use two parts sugar to three parts pulp. Cook almost half an hour, until it is thick and clear, then turn into clean, hot glasses. Cover with hot paraffin when marmalade is cold.

Never judge a man by his actions when he is away from home.

The Most Beautiful BLACK you have ever seen

"THE most beautiful black you've ever seen!" "All my friends admire my new black silk!" "The color I bought was so lovely, it's now a new, beautiful black!" These are typical comments from women who have used these true jet black dyes.

Diamond Dyes Black never gives you a greenish or brassy look, so many black dyes do. Like Diamond Dyes Red and all the other Diamond dyes, it is easy to use and gives such beautiful results because it is rich in pure aniline. It's the aniline dyes that give them brilliancy, depth and fastness; make them go on smoothly and evenly, without streaking or spotting. And Diamond Dyes contain the highest quality aniline that money can buy. The color I bought was so lovely, it's now a new, beautiful black!" These are typical comments from women who have used these true jet black dyes.

These are typical comments from women who have used these true jet black dyes.

Diamond Dyes Black never gives you a greenish or brassy look, so many black dyes do. Like Diamond Dyes Red and all the other Diamond dyes, it is easy to use and gives such beautiful results because it is rich in pure aniline. It's the aniline dyes that give them brilliancy, depth and fastness; make them go on smoothly and evenly, without streaking or spotting. And Diamond Dyes contain the highest quality aniline that money can buy. The color I bought was so lovely, it's now a new, beautiful black!" These are typical comments from women who have used these true jet black dyes.

Pleased With Canadian Hospitality

British Delegation To Institute Of Pacific Relations Show Appreciation

In a telegram from Victoria, B.C., where they took the boat for Japan, the British delegation to the Institute of Pacific Relations, wired Premier Mackenzie King an appreciation of Canadian hospitality. The delegation crossed Canada en route to Kyoto.

The message, signed by Lord Hall, Lord Chancellor of England and head of the delegation to the Institute of Pacific Relations, said: "I desire to express to you, and through you to the people of Canada, our most cordial thanks for the magnificent hospitality extended to us on our journey across the Dominion."

Premier King replied: "I thank you warmly for your kind message. I extend best wishes to each member of the British and Canadian delegations."

An Easily Made Dessert

Caramel Pudding, one of the most delicious desserts one can serve, and for all those who wish to be careful not to let the kettle boil dry. Here it is:

Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful not to let the kettle boil dry. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream—or use plain unwhipped cream, with or without garnish.

Praise For British Diplomacy

Proposals To Egypt Marvel Of Tact, Says American Paper

The Chicago Tribune says: "The British proposals to Egypt reveal British diplomacy and Imperial statesmanship at their best, and that is the best in the world. Americans must read them with admiration mingled with envy, for when will the United States in its important and often delicate relations have the benefit of so much tact, skill, and sane judgment as Mr. Henderson's proposals display?"

Doctor (to patient's landlady): "Just keep him in bed, and above all see that he does not eat too much."

Seaside Landlady (grimly): "Certainly I will; I have two or three other boarders who really ought to be in bed, too."

Teacher: "What is the little boy called who has never known a mother's care?"

Small Boy: "An incubator kid, ma'am."

The Singing Fool

By HUBERT DAIL
Copyright, 1934, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous, too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and one night she tells Al she has ceased to love him. Al refuses to believe it, but when Molly fails to show up for a New Year's Eve celebration at the Club Bomba, where Al is part owner, he rushes home to find she has packed up and left, taking Junior. She leaves note suggesting that she loves John Perry and that Al need not try to persuade her to come back.

CHAPTER XVII

"This is Mr. Stone. Is the car in?"
"No, Mr. Stone," came the answer. "Mrs. Stone took it out."
"When?"
"Tonight, about an hour ago. She said she might not be back for several days."

"Was my baby with her?"
"Yes, sir, and a gentleman."
"I see. Thank you."
Al had struggled hard to keep his voice calm. He didn't want to ask too many questions; that would excite the suspicion of the garage people and Molly's flight might get into the newspapers.

He walked to the nursery window, down below he could see the crowds in black masses still moving slowly up and down the sidewalks, welcoming the glad new year. He shook his head—no, there wasn't a chance of finding Molly tonight. He couldn't call the police because there was no definite charge he could make against her. Besides, it wouldn't be the thing to do; it would mean publicity and ghastly scandal that would involve his baby. Al thought his rage had passed now and that he was thinking clearly. He went to the doorway and heard the maid putting out in her little back room.

"Celeste?"
"Yes, sir."
"If you haven't gone to bed will you step here a moment?"
"What time did Mrs. Stone leave?"

From Mother of Six

"I think Lydia E. Pinkham's Vegetable Compound is wonderful! I have had six children of which four are living and my youngest is a bonnie baby boy now eight months old who weighs 23 pounds. I have taken your medicine before each of them was born and have certainly received great benefit from it. I urge my friends to take it as I am sure they will receive the same help I did!"
—Mrs. Milton McMillan, Vancouver, Ontario.

Lydia E. Pinkham's Vegetable Compound

W. N. U. 1807

thinned out, for it was well on toward morning. Occasionally he met a band of drunken revellers, but he stalked by them, with unseeing eyes, going nowhere in particular, but feeling the necessity for walking, walking.

All the time his mind worked furiously. Had Molly given up her stage job with The Merry-Go-Tounders; had she quit the show flat? He must see Marcus in the morning and find out. Marcus might have some idea of her whereabouts.

Now Al saw the dark expense of Central Park before him, and, without thinking, he turned in the first entrance he reached. There were the low, snow-covered hills, the bare trees whispering gently in the winter wind, the reflections of the skyscraper lights in the cold water. Here was the Japanese bridge where he had taken Junior walking only last Sunday. He stopped as if waiting for someone or something.

At that moment a dark limousine came speeding past him on the driveway. Was it Molly's car? He sprang forward.

Quickly as Al moved, the limousine was faster. It looked like a Rolls, but he couldn't be sure. And it was too dark for him to read the license plate. He stopped; there were ten thousand cars in New York that resembled Molly's. He went on, walking the streets until daylight. Then he headed for home, threw himself on his bed, fully clothed, and fell into a sleep that was tortured by nightmares.

He awoke with the sun streaming through his windows, tossed off his clothes, bathed, shaved and dressed hastily for the street. The first man to see was Marcus.

Marcus was in his office. He looked up in genuine surprise when Al walked in, pale and haggard.

"What's the matter, Al?"
"Nothing, much. Has Molly quit your show?"

"Yes, didn't you know?"
"She quit last night, just like that," Marcus snapped his fingers. "With no explanation except that she was tired and needed a rest. The press department got busy on it. Didn't you see the morning paper?"
(To Be Continued.)

A Speedy Traveller

Rabbit Can Keep Ahead Of Fast Motor Car

The driver of a motor-car in Switzerland, tells the story of the astonishing speed and long-sustained effort which a rabbit is capable of. He happened to start one, which on its flight kept to the road. In order to keep up with the rabbit, the man had to speed up to about 34 miles an hour, and the sturdy little creature held out for over a league before it finally jumped into ditch by the roadside.

No one need endure the agony of corns with Holloway's Corn Remover at hand to remove them.

Pullman Porter (to lady from the country): I'll give you a paper bag for your hat, lady.

Courty Lady: You whippersnapper! You won't get this hat for a paper bag.

It is only after a man is "colored" that he notices the "ties."

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worst pains from neuralgia or neuritis? Rheumatic pains, too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

ASPIRIN
Aspirin is a Trademark Registered in Canada

"Safety First" Invention

New Appliance For Use At Level Crossings

An electrical appliance has recently been invented, and accepted by the Italian Ministry of Communications, which warns the public of the approach of trains at level crossings. The train itself works the machine by passing over a small lever attached to an electric wire, which automatically lights a big warning disc placed on a pole or the corner of a house near the crossing, and also sounds a powerful horn. Another sign shows whether the appliance is working properly or not. The inventor is an Augustinian friar.

DO NOT NEGLECT YOUR LITTLE ONES

At no time of life is delay or neglect more serious than at childhood. The little ones come quickly and unless the mother is prompt in administering treatment a precious little life may be snuffed out almost before the mother realizes the baby is ill. The prudent mother always keeps something in the medicine chest as a safeguard against the sudden illness of her little ones. Thousands of mothers have found, through experience, that there is no other medicine to equal Baby's Own Tablets and that is why they always keep a box of the Tablets handy, why they always feel safe with the Tablets.

Baby's Own Tablets are a mild but thorough laxative which by regulating the bowels and stomach banish constipation and indigestion; break up colds and simple fevers and promote healthy, natural sleep. Concerning them, Mrs. Louis Soria, St. Eugene, Ont., writes: "I have been using Baby's Own Tablets ever since baby was a month old and have found that they reach the spot and do more good than any other medicine I have ever tried. I always keep the Tablets in the house and would advise all other mothers to do so." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Little Helps For This Week

"Make sure thy friend."—Proverbs vi. 3.

Believe me better than my best. And stronger than my strength can hold. Until your royal faith transmutates My pebbles into gold.

—Elizabeth Stuart Phelps.

To win and hold a friend, we are compelled to keep ourselves at his ideal point, and in turn our love makes on him the same appeal. All around the circle of our best beloved, it is this idealizing that gives to love its beauty, and its pain, and its mighty leverage on character—its beauty, because that idealizing is the secret of love's glow; its pain, because that idealizing makes the constant peril of its vanishing; its leverage to uplift character, because this same idealizing is a constant challenge between every two, compelling each to be his best. "What is the secret of your life?" asked Mrs. Browning of Charles Kingsley: "Tell me, that I may make mine beautiful too." He replied, "I have a friend." —William Channing Gannett.

Women and Asthma. Women are numbered among the sufferers from asthma by the countless thousands. In every climate they will be found, helpless in the grip of this relentless disease unless they have availed themselves of the proper remedy. Dr. J. D. Kellogg's Asthma Remedy has brought new hope and life to many such. Testimonials, sent entirely without solicitation, show the enormous benefit it has wrought among women everywhere.

Little John was interested in the rafters on the sleeping porch. "What are those round things Daddy?" he asked.

"They are knot holes, Son."

"Well, if they are not holes, what are they, Daddy?"

A reliable Antiseptic—Minard's Liniment.

Radio Sets Installed

Prisoners At Sing Sing Prison Can Listen In

In each of the 1,800 cells of the new extension at Sing Sing Prison is a radio receiving set, after the manner of the ultra-modern metropolitan hotels. The installations have even made, it was officially confirmed today, following reports by prison employees, and in the future convicts with terms of from two years to life may listen to concerts, to news of the outside world, sermons and bedtime stories.

The guests of the state of New York may listen in, but they may not tune in. They must listen to what comes over the air from the central receiving station in the prison auditorium, whether the program be to their taste or not. The privilege was extended after the new rules, curtailing motion picture theatre visits from seven nights a week to two, went into effect.

The Mutual Welfare League bears the expense of installing and maintaining the radio equipment.

Making Trans-Atlantic Flight

Passengers On Lines Saw Ocean In Mid Ocean

Passengers aboard an ocean liner at Southampton, reported observing a trans-Atlantic "flight" which had not been heralded in news dispatches. In mid-ocean they met a great white swan, with neck outstretched and wings flapping. The swan was apparently making for the nearest land and did not take refuge aboard the ship, which was more than 900 miles from the coast of Ireland when the bird was sighted.

Minard's Liniment For Neuritis.

An Overworked Dog
A Chanute ice-cream manufacturer advertised that he would give a cone free to every boy who called at the plant and brought along his dog.

One dog was reported near collapse after assisting all the boys in one neighborhood to obtain their cones.

Have Splendid Record

Ontario's Flying Firemen Not Confined To Patrol Work

In addition to organized forces of land patrols, the Ontario Government is trying to safeguard the valuable forest reserves from fire by patrols from the air. Up to the end of August, air patrols employed by the provincial government had flown 9,900 hours or 3,300 hours more than the total flying time on a similar service last year. Not only do these flying firemen do patrol work, but when a fire is detected they land at a fire protective service station, load men and fire fighting material, and take them as near as possible to the scene of the fire.

The electric eel of Brazil and Guinea can administer a shock strong enough to overcome a horse.

Blairmore, Alta., Thurs., Oct. 17, 1929

THE PUBLIC HAS A SHORT MEMORY

In 1904 Pyle's Pearline was favorably known to most American housewives. That year the owners spent \$500,000 in advertising it. It was an outstanding success.

Three years later the owners felt it was so well known that they could afford to save that \$500,000 a year. They ceased to advertise.

Eight years later, in 1915, the whole works, good will and all, was sold for \$12,000. The public has a short memory.

A short time ago the writer was told by a member of the advertising department of one of the largest soap manufacturers that, according to their surveys, a manufacturer of a new brand of toilet soap today could not attain national distribution and consumption of his product for less than five million dollars or in less than five years time. The public must be told—and told again.

Probably no advertising appropriation has received more publicity or been discussed more than that of the American Tobacco Company for advertising Lucky Strike cigarettes. For advertising this single commodity and brand, they appropriated \$12,500,000 for the year 1929. Of this amount daily newspapers are receiving \$6,500,000. The public must be constantly reminded, which is a newspaper's function.

What holds true of Lucky Strike holds true of everything people eat, wear or use. It is the function of the printer to also help to tell this story. In most communities there are a lot of merchants who haven't learned yet what their printer can really do for them—Ex.

J. J. McIntyre, of Bellevue, as district deputy, installed the officers of the Lethbridge Council, Knights of Columbus, on Sunday last. The officers of Father Lacombe Council will be installed at Pincher Creek on Sunday afternoon next.

HIGGINS NOT OPPOSED TO PROHIBITION

TORONTO, Oct. 12.—General Edward Higgins, head of the Salvation Army, has issued a statement in which he denies a report that he is opposed to prohibition. The statement reads:

"The reference made by Premier Ferguson in his speech to my attitude on temperance was not a quotation from any statement of mine, but was from a report of an interview I had with a representative of a London newspaper, and even the report formed only a small part of what I said upon temperance and prohibition."

"I do not suppose that any person interested in this cause would challenge the correctness of my view, that temperance secured by conviction is more effective than when it is secured by legislation. But when this is interpreted as an indication that I am an opponent of prohibition, I can only say that such inference is altogether unjustified."

THE VIKING AT BELLEVUE THEATRE FOR THIS WEEK END

Think of the biggest thrills in films—"The Big Parade," "Ben Hur," and a few others. Here is a picture thrill to equal them—a great story of love, revenge, conquest—all in amazing color and sound. You've never seen anything like it!

Here is what the critics said: N.Y. Telegraph—Sparkling tale of romance... a stirring reproduction... pictorially exciting, dramatically entertaining... intensely interesting... stirring, because of magnificent coloring.

N.Y. Evening World—A marvel to behold... one of the most beautiful ever seen on a Broadway screen. N.Y. Evening Graphic—The most successful colored production yet released.

N.Y. Daily News—The most exquisite production of this type thus far accorded the silver screen... technicolor is perfect.

Don't fail to see a real Canadian production—made in Calgary, Alberta—on Friday only at the Orpheum. "His Destiny," featuring Miss Barbara Kent (born in Alberta) and Neal Hart, and many prominent Canadian citizens aided in this splendid production.

Orpheum, Saturday only, sensational comedy drama, "Innocents of Paris," featuring greatest of all musical stars, Maurice Chevalier, and

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Communion Service, Oct. 20, 1929

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

PUBLIC WORSHIP at 7:30 p.m.

"Modern Religious Wonders."

Reception services for new members.

NEXT SUNDAY, October 27th—

Re-opening Services. Rev. J. W. Smith, D.D., of Wesley church, Lethbridge, will be present.

11 a.m.—Young People's service, to which the congregation are invited.

7:30 p.m.—Public Worship. Dr. Melvin will address the young people in the morning and preach in the evening.

MONDAY, October 28th—Church supper 6 p.m., concert and lecture at 8 p.m.

Davidson—McAndrew.

A pretty wedding was quietly solemnized in the presence of a small group of friends in United Church on Monday afternoon at 5:30, when Miss Elizabeth McAndrew, of Edmonton, Alberta, became the bride of Mr. Robert J. Davidson, of Sullivan Hill.

The bride-elect was given away by Mr. Sid Smith, of Sullivan Hill and was attended by Miss Margaret Ivy Smith. Thomas H. Day was best man. Rev. E. N. Matheson, pastor of United Church, officiated.

After the ceremony the wedding party gathered at the home of Mr. and Mrs. J. McLaughlin for the wedding dinner. Mr. and Mrs. Davidson, who are both natives of Scotland, will reside on Sullivan Hill—Kimberley, Press, B. C.

In a marathon run at Halifax on September the 28th, the winner's time was 34:26 2-5 for ten miles. This time was made by George Irwin, of Dartmouth. Five Newfoundlanders in the race made the distance in from 55 to 58 minutes.

Sylvia Beecher. Don't miss it if you want a good laugh.

Local and General Items

Mar Poy, is up from Blakom on a fall to his local interests.

Burn, on Tuesday, October 15th, to Mr. and Mrs. E. Layville, a daughter.

Mr. and Mrs. A. R. Williams, of Calgary, were visitors here on Tuesday.

The oil drilling apparatus at Mountain Mill is to be moved to a new location.

Miss Selkirk, of Peace River, is a guest of Mr. and Mrs. Donald MacPherson here.

A large number of local Mascarett journey to Pincher Creek tomorrow for the district meeting.

"Covey" Devine has been seriously ill in hospital at Coleman, but is now reported improving.

W. A. Beebe leaves tonight for Regina, where he will visit for a week or so with his son Frank.

The Athletics have been declared the winners of the world championship in baseball for 1929.

The Junior Guild of St. Luke's church will hold a tea in the Elks' hall on Saturday, October 19th, from 3 to 6 p.m.

L. A. McCannell, Alberta's publicity commissioner since May, 1927, has resigned his post, effective October 1. He purposes taking up farming.

Yes, sir, golf must surely be doing a good turn for humanity, for since the season's tournaments have ended, far more crimes are recorded in the daily press.

Over the desk of a collector in one of the Ontario ports hangs the following timely motto: "Whatever you would like the other fellow to do to you, best him to it."

"To some people, liberty means license. We have all heard that before, but do we know exactly what it means? License means anarchy, and anarchy means the loss of all liberty, because there would then be no limit to what anyone might or might not do."

One of the largest congregations ever in the United church met last Sunday night to hear the Georgian Singers. The service was arranged as a service of song and proved a great delight to all present. Visitors were present from Frank and Hillcrest.

The congregation of Hillcrest United church will be looked after by Rev. J. W. Smith, B.D., of Blairmore, until the end of the conference year, ending in June, 1930. Service will be held in Hillcrest at 3 p.m. every Sunday. Mr. Smith will spend one or two days every week in Hillcrest.

A meeting of the Blairmore First Aid Association will be held in the general office of the West Canadian Collieries, Limited, on Sunday morning at 11 o'clock, for the purpose of organizing classes in First Aid work. Everyone interested in this work are requested to attend this meeting. Text books and supplies will be given to students free of charge.

Johnny Kerr, of Passburg, won the Calgary Olympic five-mile race against eighteen competitors on Saturday afternoon last; Fred Blight, of Calgary, coming close second, and Jerome Platt, of Brant, third. Kerr's time was 30:26 2-5. He was presented with the handsome trophy and a gold medal.

A road hog caused Tony Vejprava on Sunday afternoon to suddenly decide between taking the scratch of the "hog's" car or smashing into the rocks on the Frank Slide. To save the lives of his wife and child, he chose the latter, with the result that his Plymouth coupe was badly damaged, but he and his family escaped unharmed. The "hog" didn't return to the scene of the accident and has not been identified. There is need for a very close check being made on characters who persist in hogging the road when meeting other cars.

Local radios will be in readiness this evening to receive the address of Hon. Ramsay MacDonald, British Labor premier, who will speak in Ottawa.

A splendid specimen of mountain sheep was brought in from the Gould's Dome region this week by a party of local hunters.

JACK MINER'S PROGRAMME

Quite a number of local folks journeyed to Pincher Creek on Sunday night to hear Jack Miner's lecture, and all were highly pleased with descriptions given of the great work being carried on at his bird sanctuary in Ontario.

The following is part of the programme which Mr. Miner plans to carry out some day:

1. Jack Miner stands for what is best for the most people and not for the favored few.

2. Jack Miner stands for conservation of the Dominion's forest resources as one of the most important foundations of the country's prosperity and the natural habitat of wild life and the first essential to the continuity of our rivers and water powers.

3. Jack Miner stands for reforestation of all waste lands and windbreaks and forest borders of at least ten per cent of farming country, knowing that the other 90 per cent will become more productive and have the comforts of the windbreaks and timber to their good.

4. Jack Miner stands for preservation of all remaining marsh lands and replanting and maintenance of natural conditions and environments.

5. Jack Miner stands for preservation and culture of wild flowering and other plant life that makes our houses into homes more attractive and lovable.

6. Jack Miner stands for at least one government sanctuary of at least twenty-five acres in each district, and no shooting to be allowed within one mile of it. Lands around the protective zone to be open to public shooting in the open season. This policy he knows will distribute the wild life more evenly throughout the nation.

7. Jack Miner stands for the Migratory Bird Treaty between Canada and the United States, and a small uniform Federally controlled bag limit treating all provinces alike.

8. Jack Miner stands opposed to sale or commercialization of game in any way, shape, manner or form.

9. Jack Miner stands for erection of a small observatory on every sanctuary so that the bird lover with his kodak can have first choice without disturbing the birds. Jack Miner knows that the bird lover takes nothing from the shooters and by encouraging him his assistance aids the building up of the overflow from the sanctuaries for the shooter's limited toll.

10. Jack Miner stands for appointment of game law enforcement officers by qualification and not by favor.

11. Jack Miner stands for practical control of predatory birds and animals.

12. Jack Miner stands opposed to pollution of streams that is a detriment to food and game fishes and their foods and for establishment of hatcheries for these species to restock our lakes and streams.

13. Jack Miner stands for more wild nature studies in our schools that our children become more interested in closer acquaintance with all forms of wild life, their habits and haunts. This will increase their desire for home building in the country where they get their living at first choice and price, as 10 cents will buy them more country life than one dollar will buy city life, and leave them with a stronger constitution and willingness to stand up and face the world.

14. Jack Miner stands for amalgamation of all conservation and wild life protective organizations, with a view to uniformity of policy in activities co-operating to one common end.

15. Jack Miner stands firm for more and better education for all, with special attention to God's promise in Genesis 1-26, when He says, "Let man have dominion over all," which he has tested out and found to be true. This will eventually bring about more sane and effective legislation in the interests of both national and international affairs, and weld us closer together to a mutual beneficial end.

THE PASS FIFTEEN YEARS AGO
(The Blaimore Enterprise, 1914)

March 6.—At Monday night's meeting of the town council, a communication was received from the Canadian Pacific railway, stating that they were prepared to co-operate with the town in establishing a park near the railway depot, the shrubbery, etc., to be furnished by the company, the town to look after labor and upkeep.

Mrs. A. J. Mackinnon, who had been spending a couple of weeks with friends in Macleod, returned to Frank last week end.

Jack Miller is hauling stone for the foundation of A. I. Blais' new store at Frank.

Ed. Donkin will act as auctioneer at the next basket social at Frank, so prepare yourself and your pocket.

The Blaimore Nest of Owls will meet on the first and third Thursday of each month. J. W. Gresham, pres-

ident; Joe Handley, secretary.

D. A. Sinclair has treated himself to a new Ford, which will arrive from Calgary by special train this week.

Miss Griesbach, of Calgary, has accepted a position as stenographer in the law office of L. H. Putnam.

Harry Lamberth, who for the past couple of years has managed the local store for the "41" Market Company, severs connection with the firm this week.

A large size tumbler dropped into Joe MacDougall's throat while he was taking vocal exercises on Saturday afternoon. Complications between Joe and the hotel proprietor immediately set in. Hope is entertained for the complete recovery of the glass.

The trial of Krachenko will start at Morden, Manitoba, on March 10th, for the murder of H. M. Arnold, manager of the Plum Coulee branch of the Bank of Montreal. Fifty-nine

witnesses have been summoned to give evidence.

Dick Randall, who for some time has held down a barber's chair at Bellevue, will open a tonsorial parlor at Champlain.

Charles Anderson, who has filled the office of police chief at Fernie for about seven years, has resigned to take a similar post at Kamloops.

Why do Chinese gardeners almost invariably drive wagons with wobbly wheels? Most of their steeds have entered the golden twilight of life and seem to be marking time. The heathen Chinese is not given to horsemanship to any great extent, and this is probably the reason for having horses too old to take fright and run away, but that is no excuse for wobbly wheels on the vegetable wagons: A car driver meeting one of these

vegetable wagons on the highway is not always sure just what will happen. Anyway, it can never be said that the vegetable wagons are given to speeding.—Kimberley Press.

The Claresholm Elks Sports Club has been incorporated under the Societies Act. This company has been incorporated for the purpose of holding land, consisting of the fair grounds.

What Is Education?

Educational policies and educational methods are today the subject of world-wide investigation, study and discussion, and particularly so in all English-speaking countries. Perhaps in no previous period has the subject of education received more attention from the masses of the people. To a greater extent than ever before parents are showing a real interest and deep concern. They are in a questioning and questing mood, anxious to know whether accepted policies, systems and methods are productive of the best result.

It is also true that our schools and higher institutions of learning are costing more, and that the bills which have to be met by the taxpayers in order to provide and maintain their school systems are mounting year by year, and already constitute a large percentage of the annual tax levy. The vast majority of taxpayers do not object to this, and this is the vital matter,—they are obtaining decidedly better results in the education of the younger generation, and all that they have a right to expect from such increased expenditures.

The higher standard of living now so universal, as contrasted with thirty, forty, fifty years ago, has the effect of enabling parents to give their children high school and university training to an extent hitherto unknown. Tens of thousands of children now proceed to high school, colleges, and colleges who not so long ago would have completed their academic training when they finished with public school. And the demand is for still greater facilities for secondary education, especially for those resident in rural areas and the smaller hamlets and villages scattered all over the land.

The question arises in the minds of many: Are all these young people being truly educated? Are the thousands of young men and women annually gathering from our universities with the right to add B.A., M.A., and other letters after their names educated in the truest and highest acceptance of the word? Or are they merely equipped with certain tools which many of them do not know how to use for their own advancement and the welfare of the human family?

Dr. George A. Coe, veteran educationalist of Northwestern University, and recently retired from Teachers College, is convinced that a good education is education for good living. "What an absurdity it would be to certify as well-educated a youth who has never been socially awakened,—well-educated, yet negligible as far as social well-being and social progress are concerned," Dr. Coe presents "ten points" by which a truly educated man can be detected, which are worthy of consideration:

1. An educated man is one who is trained to use the tools of human intercourse with readiness, precision, and accuracy. We mean, especially, language and the rudiments of number.
2. An educated man must be able to study and to think without guidance from others. He must be—to some extent—a thinker, not a mere imitator.
3. An educated man must have sufficient knowledge of nature to understand the main processes upon which human life and happiness depend.
4. An educated man knows enough of history to enable him to understand the main achievements of man.
5. An educated man is acquainted with the major resources for intellectual and esthetic enjoyment. He knows nature, literature, music, and the other arts sufficiently to choose superior to inferior enjoyments.
6. An educated man is marked by his interests as well as by his trained abilities. His attention is habitually attracted by significant rather than trivial objects, events, pursuits, and enjoyments.
7. An educated man must be not only this general culture, but also training for a specific occupation. Practical activity that is directed toward some sort of efficiency has to be included.
8. An educated man must have toward his fellows the habitual attitudes that are commonly called ethical,—such attitudes as honor and honesty, helpfulness and good-will and co-operation.
9. An educated man must have loyalty to at least some of the important organizations and institutions of society, such as one's family, one's country, one's church.
10. If there is an inclusive meaning in life, the sort of education that I have been outlining should include some apprehension of, and feeling for, the divine; the ideally educated man will reverence God, and know how to worship.

Sherwood Eddy, who quotes these "ten points" by Dr. Coe, in his recently published symposium on the methods, purposes, and results of American colleges and universities suggests, in order to determine whether one's education is still alive and growing,—and it should always be alive and growing, not a dead and finished thing, if it is real education,—answering the following questions:

1. Am I learning to study and to think?
2. Am I getting the knowledge that I need most? Am I learning to enjoy things that are most worth while? Am I acquiring esthetic appreciation of the significant values of life?
3. Am I living in the real world or in a corner apart? Am I learning to live by living now; by acquiring some vital knowledge of the world and its real problems, by actually facing them and beginning to try to solve them now? Or am I evading, or postponing life, playing about with its trifes in a thoughtless and unreal academic world?
4. Am I progressing, standing still, or going backward?

The dome of St. Paul's Cathedral, England has no mountains high enough to be perpetually covered with snow.

Reduce the Acid

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. All this kills acid instantly. The best remedy is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

Take a spoonful in water and your unhappy condition will probably end in five minutes. Then you will always know what to do. Crude and harmful medicines will never appeal to you. Go sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

To Return German Property in Canada

Gross Value Of Holdings In Dominion About Thirteen Millions

German property in Canada taken over during the Great War will be returned as a result of The Hague settlement, to which the Dominion is a party.

Thomas Mulvey, K.C., custodian of enemy property, will leave shortly for Berlin to conclude the details of the transfer. The gross value of German property in custody in Canada is said to be approximately \$13,000,000, comprising real estate, bonds and corporate securities.

India Buys Canadian Grain

First Shipment To Be Made From Montreal Shortly

Thirty-two thousand quarters of grain will be shipped from Montreal to India in the near future at a carrying charge of 22s. 6d. per ton. It is announced by Thomas Harding and Son, agents of the S. S. Zurich, that it is believed this will be the first consignment of Canadian grain ever shipped to India. The local agents have not yet been notified of the particular type of grain required.

WAS ALWAYS AILING NEVER FELT WELL

Health Restored Through the Use Of Dr. Williams' Pink Pills

"I am one of the many who have found new health through the use of Dr. Williams' Pink Pills," says Mrs. Everett Down South Nelson, N.B. "For some years I never felt well, and at times was so weak that I would be confined to bed. At the very best I was in an ailing condition and found it difficult at all times to do my household work. I was subject to headaches, poor appetite, breathless at the least exertion, and very pale. Before Dr. Williams' Pink Pills were recommended to me I had tried several medicines and felt that I would always be an invalid. My friends strongly urged me to take Dr. Williams' Pink Pills, and finally I consented to do so, but without much hope that they would help where other medicines had failed. But in this, to my joy, I was mistaken. I had not been taking the pills very long when I knew they were helping me. As I continued their use I found my appetite improving, I slept better at night, and my strength was gradually returning. I continued taking them for several months, when I again found myself a well woman, and I believe have had no more of the ailments which I had been suffering from. I strongly urge every weak woman to try this grand health-building medicine."

If you will send your name and address to The Dr. Williams' Medicine Co., Brockville, Ont., a little book, "Building Up the Blood," will be mailed you postpaid. You can get these pills through any medicine dealer or by mail at \$1.00 a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Egg-Marketing Record
New records for the co-operative marketing of eggs in the western provinces have been established for the first eight months of 1929. To August 31, the Canadian Poultry Pool, Limited, the central selling agency for the western provinces, has handled more than 7,000,000 dozen eggs.

As a vernacular effective preparation is Mother Graves' Worm Exterminator, and it can be given to the most delicate child without fear of injury to the constitution.

To Exchange Ambassadors

Great Britain Has Entered Into Agreement With Russia

Great Britain and Russia have agreed to an exchange of ambassadors, thus paving the way for full resumption of trade and commercial relations between the two countries. The agreement, which is subject to parliamentary approval in England, was reached in a secret meeting at Leves, England, between Right Hon. Arthur Henderson, foreign secretary of Great Britain, and Russian ambassador, Valerian Dolavlesky, who came from his Paris post.

The Oil Of Fenner. It is not claimed for Dr. Thomas' Electric Oil that it will remedy every ill, but its uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

Warden (to prisoner): "You say you want a key. What in thunder are you going to use it for?"

Inmate: "I want to sleep home at night—I was only sentenced to 30 days in jail."

Minard's Liniment For Warts:

Children's Colds

Best Treated Externally
That's why modern mothers prefer Vicks—it cannot penetrate delicate stomachs, rubbed on throat and chest, it acts two ways at once:

- (1) Its healing vapors, released by the body heat, are inhaled direct to the air passages;
- (2) It "draws out" the soreness like an old-fashioned poultice.

Real English Pantomime

Colossal British Production, "Humpty Dumpty," Coming Soon

Old Country folk who have long craved to see a real English pantomime, and Canadians who have heard so much of these sumptuous musical entertainments from friends will welcome the news that at last a British producer, Mr. Philip Rodway, has had the courage to send us one of these productions in "Humpty Dumpty," which will be seen at the Grand Theatre, Regina, for three nights and Wednesday matinee, commencing October 21st. When "Humpty Dumpty" was presented in London, it was an instantaneous hit which is proven by the following from the Toronto Daily Telegram.

"This season's triumphant march of the British Theatre into the hearts of Canadians made notable progress at last night when a large audience at the Princess Theatre acclaimed Philip Rodway's presentation of the musical pantomime extravaganza, "Humpty Dumpty." A story drawn from fairyland it is, but one that appeals to young and old—a message of good cheer and optimism, with new faces and new songs, diverting, wholesome, fascinating.

"Wee George Wood, of course, is the outstanding star. The diminutive player is a gifted actor exuding personal magnetism, with that rare ability to change a crowded scene from mere comedy to pathos merely by altering the expression of his face or the tone of his voice. He can build up mass interest in some conceit or other till it soars high, and then crash it down in a heap with a lightning-like flash of irresistible wit. His smile is impish in its compelling good humor. Then, in an instant, he adopts a mask of sadness, and the composite face of all the little boys ever lost in snowstorms tears at the heart-strings of the audience. His part is that of "Humpty Dumpty," a nondescript lad out of a broken egg. Few who see it will forget his classic imitation of a boy in the process of being washed at bedtime by his mother. Later, as a Scotch ladle with a dog, his antics are inimitable and his Highland accent, by the way, worthy of Lauder himself. Furthermore, Mr. Johnson never knew as well as "Wee George" how to talk to an audience in a natural fashion. It is some feat to get a Toronto theatre singing unaccompanied songs. "Wee George" did it last night at the Princess."

Two pieces of broken Indian pottery, the first reported found in the region, were recently discovered in Rocky Mountain National Park.

A Severe Attack of Dysentery Checked by 4 Doses

Mr. I. Burtonwood, 620-22nd St. W., Saskatoon, Sask., writes:—"My child when only seven months old had a very severe attack of dysentery, and after three days' treatment with other things we decided to use"

On this day his bowels had moved twenty-three times in eleven hours, but four doses checked it. "A short time ago we offered it to a neighbor whose baby was troubled, and it too was relieved within thirty hours."

"We both always kept a bottle of Dr. Fowler's baby at all times. This medicine has been on the market for over 80 years; put up by Dr. J. C. Fowler, Ltd., Toronto, Ont."

Splendid Progress Made on Prairie Branch Line Project

Work Being Rushed On 418 Of the 668 Miles Authorized

Construction on the branch line program of the Canadian National Railways on the prairies has proceeded in a particularly satisfactory manner during the summer, according to an announcement made by H. A. Dixon, chief engineer, western lines of the company. Work is in progress in practically every section of the programme authorized by Parliament at its last session, stated Mr. Dixon.

In Saskatchewan and Alberta a total of 588 miles of new line, was authorized and of this mileage work is progressing on 418 miles. On the Aberdeen-Melfort line, 25 miles of steel already have been laid in an easterly direction from the junction with the Cudworth subdivision at Wakaw. In a number of cases grading is as much as 70 per cent. completed. Mr. Dixon says that there will be a continuance of this work on all branch lines as long as weather conditions permit.

Although the programme was one of the heaviest ever undertaken by the company, only 150 miles have had no work done on them. However, plans are prepared to begin work on this mileage next year, and the assurance is given by Mr. Dixon, that the programme will be fully completed within the three year period defined by parliament.

In addition to this programme the company has also succeeded in putting steel into the Sherbrooke-Gordon Mine over the branch line authorized last fall, and is practically completing the first lift of ballast to Fort Churchill over the 90 miles of grade upon which a skeleton track was laid last winter. The engineers in charge expect to have this piece of track in such shape early next summer, that through freight and passenger trains will be able to operate between The Pas and Churchill by the end of July at the latest.

Work done on the prairie branch lines during the summer, this work including only the three year programme, 1929-32, may be summarized as follows: Melfort-Aberdeen branch, 88 miles. Grading 70 per cent. completed, and 25 miles of steel have been laid easterly from the junction with the Cudworth subdivision at Wakaw. Balloon operation, as now proceeding on this portion of the track.

Mavour south westerly branch, 50 miles. Grading on this branch is about 20 per cent. completed. A material yard has been constructed at Mavour for the purpose of assembling material for track laying. Neldpath-Swift Current branch, 30 miles. Grading on this branch is about 60 per cent. completed and a material yard has been constructed at Neldpath for the assembling of track laying material.

Hamaruka-Scapa branch, 41 miles, westerly from Hamaruka, Alberta, to a junction with the Badging subdivision at Scapa. Grading on the branch is about 60 per cent. completed and a material yard has been laid out at Scapa where track laying material is now being assembled.

Hamlet-Glenora branch, 33 miles. Grading on this branch is about 15 per cent. completed and a material yard is being built at Hamlet. St. Walburg-Bonnyville branch, 128 miles. Grading on this branch is about 10 per cent. completed and a material yard has been constructed at Bonnyville for the assembling of track laying material.

Ridgedale easterly branch, 30 miles. Tenders for clearing, grading and installation of culverts on this branch are now being asked and a start will be made this fall if weather conditions permit.

Bulwer easterly branch, 25 miles. No work will be done on this branch before next year.

Alliance south easterly branch, 95 miles. No work will be done on this branch before next year.

Works In Reverse
The butterfly is an insect whose heart beats backwards as well as forwards, according to Prof. John H. Gerould. The beat starts at the back and travels forward, squeezing the blood on ahead of it. After repeating this several times the heart will pause and then a beat will start at the forward end, forcing the blood in the opposite direction.

The walking speed of the average man is about three miles an hour.

For Sprains—Use Minard's Liniment.

Acids in Stomach Cause Indigestion

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to excess of hydrochloric acid in the stomach. The delicate stomach lining is irritated, secretions are increased, food sour, causing the disagreeable eructations which even stomach sufferers know so well.

Artificial stimulants are not needed in such cases and may do real harm. Try having acids, all digestive aids and instead get from any druggist some pleasant Mergal and take a little in water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. H. H. H. Mergal (a powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of neutralizer for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

May Emblazon Honors On Regimental Colors

Canadian Regiments Have Received Sanction From King George

Final approval has now been secured from His Majesty the King for the emblazoning on the regimental colors of Canadian personnel and non-permanent active militia units. The honors won by these regiments during the Great War. At present 88 regiments have been given definite sanction to embroider these honors on their colors, and in due course the remainder of the militia will receive authority according to the qualifications of the regiments concerned.

Thus a question that has consumed almost twenty years and has involved little short of scanning of war records of almost every one of the 600,000 Canadians who served in the Canadian Expeditionary Force, is settled once and for all. The King has now accorded the honors won by these regiments to the Canadian Corps—50 in number—is perpetuated in the non-active militia (exclusive of the three infantry regiments of the permanent force). The perpetuating unit, therefore, has been accorded the right to carry the honors won by its corresponding Canadian Corps battalion.

Four militia regiments in Manitoba, five in Saskatchewan, and five in Alberta, have been given authority to carry the battle honors in this, the first allotment made.

If Miller's Worm Powders needed the support of testimonials they could be got from mothers who know great virtue of this excellent medicine. But the mothers will speak for themselves and in such a way that there can be no question of them. They act quickly and thoroughly, and the child to whom they are administered will show improvement from the first dose.

Sunspots Vary In Number
Sunspots are in numbers in a period of average length of eleven and a half years. The weather is found to vary along with these changes in the sun, in some localities quite definitely. As a result living conditions vary with consequent effects on birds, animals, tree growth, and economic conditions.

An Oil Without Alcohol—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils composed of various kinds of electric oil, and there is no alcohol in it, so that its effects are lasting.

Poor Year For Tree Seed
The season of 1928 was a poor one for the collection of forest tree seed throughout the western provinces, and orders received by the Forest Service of the Department of the Interior for seed could be filled only in part.

RAISE QUESTION OF THE FREEDOM OF THE SEAS

New York.—President Hoover in his conversations with Rt. Hon. Ramsay MacDonald, premier of Great Britain, raised the question of the freedom of the seas and British naval stations in western Atlantic waters, according to a special Washington despatch in the New York World. The World story says:

"From an unimpeachable source the World learns that during the rapid conversations, after naval tonnage questions had been discussed, President Hoover to Premier MacDonald's surprise, raised the question of freedom of the seas."

"President Hoover explained his fears of adverse Senate action on the naval treaty and the necessity of dealing with problems of sea law and suggested invocation of the world court. Mr. MacDonald explained the reasons why this was difficult for Great Britain but promised immediately upon his return to London to open negotiations on this question in all its aspects."

"Mr. Hoover, according to the World's authority, discussed British naval bases in the Caribbean and at Halifax. Before his official visit closed, Mr. MacDonald was able to secure a statement from United States naval sources that these bases are not regarded by American admirals as a menace to the United States, but he promised to discuss this subject at Ottawa and raise it at once on his return to London."

Along the same line, a special Washington despatch to the New York Post said:

"Washington gossip, in well-informed circles, has it that there is a possibility of the prime minister's departure being capped with a gesture of peace and goodwill in the grand manner, to meet explicitly of an offer to de-militarize the British naval bases at Bermuda, Trinidad and Jamaica, and possibly Halifax, if Canada consents."

"These bases, it is pointed out, are of very little use to Britain anyway, and their existence a comparatively short distance off shore from the United States, has always been a thorn in the side of intense nationalism here. There was nothing of course to condemn this rumor, however, and there was a decided declaration in state department circles before Mr. MacDonald arrived that nothing of that sort would be discussed."

No Invitation Received

Canada Not Formally Asked To Attend Naval Conference

Ottawa, Ont.—Canada has received no formal invitation to attend the five-power naval disarmament conference in London, next January, Premier King states. Preliminary correspondence on the subject showed that the dominions would be welcome to participate in the conference, but there had been no definite invitation. The premier said he would consider the question of Canada's representation when a definite invitation is received. Asked if he would go himself, he replied that he thought that would be unlikely. It was too near the opening of the Dominion Parliament, he pointed out.

Making Dash For Antarctic

Norwegians Hope To Beat Australian Expedition To South

New York.—The New York Times publishes the following special cable from Capetown, South Africa: "Two Norwegian vessels are making a dash for the Antarctic with the object of raising the Norwegian flag along unknown stretches of the coast in advance of Sir Douglas Mawson's Australian Antarctic expedition. By claiming Antarctic territory the Norwegians hope to avoid paying royalties to Britain or Australia on the enormous number of whales caught annually in these waters."

Lake Water Levels High

Ottawa.—Water levels of Lake Ontario from June to September inclusive were the highest for that period since 1908, reports of the Canadian hydrographic service show. For Montreal harbor they were the highest since 1917; for Lake Erie since 1887, and for Lake Huron since 1888. Lake Superior was 1/4 inch lower than in 1925, when it was at its highest peak since 1916.

W. N. U. 1927

Defends Bishop Lloyd

Saskatchewan Premier Commends Work Of Anglican Clergy

Saskatoon.—A defence of the immigration work of Bishop G. Eaton Lloyd, plans for more educational facilities in the province, the establishing of an office in England to encourage a greater influx of British immigrants, and an attack on Peter Verigin, Doukhobor leader, featured an address by Premier J. T. M. Anderson to visiting clergy, graduates and students of Emmanuel College here. The occasion was part of the third day's program of the Anglican College's jubilee.

During his luncheon address Dr. Anderson lauded the important and valuable work of the clergy in the progress and welfare of the province, especially during the pioneering days of the West.

The Premier was introduced by Bishop Lloyd who welcomed him as a churchman, Premier and "straight man." He spoke principally on the educational problems confronting the government of the province at the present time and pointed to the great work yet to be done in the La Crosse and Cumberland areas particularly. He said it was possible schools would be established there in the near future.

Grain Board Assistants

Appointments Announced Of Three Representatives For Manitoba, Saskatchewan and Alberta

Ottawa.—The three assistant grain commissioners appointed under the amended provisions of the Canadian Grain Act were announced this afternoon by Hon. James Macdonald, Minister of Trade and Commerce, as follows:

Manitoba—Professor T. J. Harrison, Manitoba Agricultural College, Brandon.

Saskatchewan—Hon. R. S. Dundas, of Pelly, Sask.

Alberta—W. H. Blatchford, Calgary. The above appointments were made by the cabinet on the recommendation of the Board of Grain Commissioners.

The appointments are in pursuance of amendments made to the Canadian Grain Act at the last session of Parliament following an extensive investigation by the standing committee on agriculture and colonization.

The commissioners of the board appointed some time ago consist of E. B. Ramsey (chief commissioner), Hon. C. M. Hamilton and Dr. D. A. MacGibbon.

Service Will Start

On December First

Prairies To Have Air Mail Within Six Weeks

Ottawa.—The extension of the air mail service on the prairie beginning December 1 is a step toward a national service. Mail trains will carry the heavy mail while first class mail will be carried by "plane." Because will be installed at Regina, Saskatoon, Edmonton, Calgary and Banff next month. When service is in full operation eighteen hours will be cut in time from Vancouver to Montreal, and twenty-four hours from Montreal to Vancouver. The disparity in time of the eastern and western service will be due to train connection required in the picking up of the mail. Air mail service down the McKenzie River will start about October 27, and will be twice a week from Edmonton as far north as Aklavik.

With the close of navigation on the St. Lawrence, the winter air service on the north shore of the St. Lawrence will begin. Another service to start with the close of navigation is from Lexington to Pitt Island.

Afghan Minister Expelled

London, England.—Shuja Ed Dowler, Afghan minister at London, who remained at the legation here after the downfall of his king, Amanullah, has been expelled from Great Britain. Some morning papers said the expulsion took place several weeks ago and said it was for "impersonal reasons."

Fissions Too Late

London, Ont.—Six aged London men and women whose applications for old age pensions had been approved and who were scheduled to receive payments beginning November 1, have died since their cases were passed upon.

Wedding Is Postponed

Denver, Colo.—The Denver Post says that the wedding of Henry Bradley Martin, Jr., and Valerie French, granddaughter of the late Field Marshal French, of England, has been postponed for one year.

Large Increase In Federal Income Tax

Yukon Only District Not Ahead Of Last Year

Montreal.—Collections of the Federal Income Tax for the six months ended September 30 last, totalled \$63,020,630, an increase of about 20 per cent. over the same period last year when collections were \$52,972,358, says a special despatch from Ottawa, published in the Montreal Gazette. Figures were made public by Hon. W. D. Elser, Minister of National Revenue. All collections districts in the Dominion with the exception of Yukon showed an increase.

Canadian Drowned In South

Vancouver Men Lose Lives At Long Beach, California

Long Beach, Calif.—Two men, visitors here from Vancouver, B.C., were drowned in a rough sea, running off the beach. They were Chester Palmer, railroad engineer, and A. McPhee, a Canadian Government locomotive inspector.

Identification was made by Joseph McCrann, Los Angeles, who accompanied them to the beach. Palmer and McPhee were swept beyond their depth by an exceptionally large wave. Their bodies were recovered within a few minutes, but efforts to revive them failed.

LITTLE DEMAND FOR WHEAT FOR SOME TIME YET

Winnipeg.—At least six weeks must elapse before there is increased demand from European buyers for North American wheat according to a report issued by E. A. Ursell, statistician to the Board of Grain Commissioners, Fort William.

An optimistic note concerning the present serious grain storage situation at head of the lakes ports, however, is contained in Mr. Ursell's statement, received here from Fort William. He points to the increasing movement down the lakes, and forecasts that shipments from prairie points can be handled at lake head ports without more serious congestion, provided the present movement is continued. He also points to the additional storage capacity provided at Georgian Bay ports this fall.

"Toronto.—No immediate solution was seen of the present grain congestion situation by Sir Henry Thornton, president and chairman of the Canadian National Railways, he said, in an interview here.

"I know that it will cause a very substantial reduction in our net earnings, and this is upsetting after our starting off with such bright hopes of a banner year," Sir Henry said.

"There must be a compromise of some kind soon," he said, "one side is bound to crack."

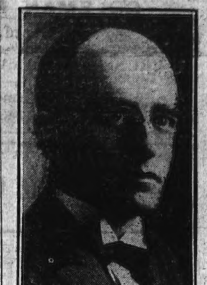

"I hope the farmers get plenty for their wheat," he said, "but I hope something happens soon to relieve this situation."

World's Largest Bronze Propeller

601

All in one piece—four blades and boss—the "propeller" shown above in the process of manufacture is the world's largest bronze propeller. It has just been made in the Charlton Works of J. Stone & Co., Ltd., for the new Canadian Pacific liner "Empress of Japan," which will take up service between Canada and the Orient next July. More than 35 tons of special bronze was used in casting this "boss," which is over 30 ft. in diameter. There are two of these on the new 25,000-ton vessel. They will absorb 15,000 shaft horse power each and will drive the liner at a speed of 21 knots.

MAY BECOME QUEBEC CHIEF JUSTICE

Hon. Lucien Cannon, solicitor-general in the King's ministry, who, according to rumors circulated in Liberal circles, is in line for chief justiceship of the province of Quebec.

Plane Was Wrecked In Forced Landing

Missionary and Family With Pilot Narrowly Escape Death

Prince Albert.—Missing for three days in the north country, the aeroplane carrying Pilot Alva Malone, a missionary, and his family, was discovered a mass of wreckage near Lac la Ronge, Sask. It was disclosed that the machine was damaged beyond repair, when a forced landing was followed by a crash and the passengers narrowly missed death.

Pilot Malone reached Lac la Ronge after walking from the scene of the mishap. The missionary, Rev. W. N. Fisher, en route with his wife and two children to take over the Anglican mission at Lac la Ronge, decided to continue their journey by canoe.

Making Tour Through West

Premier King Plans To Speak Twice In Each Province

Ottawa, Ont.—Premier King visits Western Canada this autumn. He will traverse both the northern and southern routes across the prairies and the Rocky Mountains, going westward to Prince Rupert, down to Vancouver and Victoria, and returning through the southern routes. He expects to make two speeches in each province.

Mr. King will be accompanied on the tour by Senator Andrew Haydon. Colonel The Hon. J. A. Ralston, Minister of National Defence, who will be in the west at the same time, will join the Prime Minister at several points where public appearances are to be made.

B.C. Pioneer Dead

New Westminster, B.C.—Charles George Major, 79, resident of British Columbia for 70 years, and a pioneer link with the Cariboo gold rush days, died at his home here. Mr. Major drove the first stage coach over the Cariboo highway during the hectic days of the gold rush. Later he became official administrator for the county of New Westminster.

Sea Monster Reappears

Has Been Seen Again In Cowichan Lake, B.C.

Cowichan Lake, B.C.—Appearance of a "great headless monster" in the placid waters of Cowichan Lake recently has been reported here and the story is revived with mingled terror and curiosity. Several search parties have been sent out to verify the original chronicle brought in by James Thomas, of Riverside, who claims that he saw the creature while cruising in his powerboat.

Several months ago a visiting doctor reported having seen a sea serpent in Cowichan Lake and was jeered. The creature reported by the doctor has evidently reappeared.

MACDONALD VISIT WILL RESULT IN LASTING BENEFIT

Washington.—"We do hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent, as a substantial contribution to the efforts universally made by all nations to gain security for peace—not by military organizations, but by peaceful means, forced by the people and enforced by a sense of justice in the civilized world."

These are the concluding words of a joint statement issued by the prime minister of Great Britain and the president of the United States.

The statement declared the governments of Great Britain and the United States accepted the peace pact of Paris as not only a declaration of good intentions, but a positive obligation to direct national policy in accordance with the pledge to renounce war as an instrument of national policy. As a result of this attitude, historical problems might be approached from a new angle, for conflicts between military forces could not take place.

The prime minister and president therefore agreed those questions would be the subject of active consideration, and conversations between the two governments and begin in the same method as was pursued in the naval disarmament discussion of this summer.

The statement asserted the naval conversations had brought the governments so close together that obstacles in previous conferences arising out of Anglo-American disagreements, now seem substantially removed. But agreement could not be completed without the co-operation of the other naval powers. Both the prime minister and the president felt confident such mutual understanding would be reported as would make an agreement next January possible.

"In view of the security offered by the peace pact, we have been able to end, we must forever, all competitive building between ourselves, with the risk of war and waste of public money involved, by agreeing to parity of fleets, category by category," the statement said.

Conversations of the most private and free nature between J. Ramsay MacDonald and Herbert Hoover, extending over a period of five days, ended with the issuance of the statement, and after having inaugurated what may become the custom of word of mouth communication between the heads of the British and American peoples.

Incidentally Mr. MacDonald has gained for himself a great personal triumph in Washington and throughout the United States, to which triumph his daughter, Isabel, has contributed not a little.

The profound, the immense, value, which observers here doubtless attach to the unprecedented conference of the prime minister with the president, is suggested in the final statement of the joint statement: "We hope and believe that the steps we have taken will be warmly welcomed by the people whom we represent," and the more tangible substance of that value seems to lie in the announcement that in the new atmosphere created by the peace pact, discussions of historic problems between the two nations will be begun.

Throughout the visit of the prime minister to Washington he has continually laid emphasis upon the Paris pact, referring to it in his various addresses as a "monument in history."

It is now proposed in the circumstances of war being declared "unthinkable" and the assumption that war is banished, to go forward to the solution of the problems involving important technical matters requiring detailed study, thus making the pact not only a promise, but at the same time a background and motive force in international politics.

PRESENT SCHEME FOR ORGANIZING C.N.R. FINANCES

Toronto.—At the next session of parliament, Mr. Henry Thornton hopes to present a scheme for organizing the financial structure of the Canadian National Railways, he told the Empire Club here.

It was a stupendous task, he said, to catalogue and appraise the securities of the 92 different companies which went to make up the system but this had been done and the next step was to ask parliament to approve a scheme which would "secure the financial permanence of the property and at the same time enable us to capitalize the financial improvement made in the last few years."

"If the property is to improve in the future as it has in the past," Sir Henry said, "our financial structure must be one which will enable the government to write down the national debt and take advantage of what were formerly liabilities but have now become assets."

A certain financial paper, Sir Henry said, had described the Canadian National as a dictatorship and himself as a dictator. "It is nothing of the sort," he declared. "The Canadian National Railway represents as fine an expression of co-operative effort as can be found in the industrial world. It would be stupid to say the success of the road has been due to the work of any group or of any individual. The greatest opportunity is given all our executives to assist in formulating policies and directing operations."

Doukhobors Flocking To New Settlement

Radicals Joining Sons Of Freedom At Porto Rico, B.C.

Victoria.—Information reaching Victoria is to the effect that radical Doukhobors are drifting into British Columbia from Saskatchewan and the United States, and have swelled the Sons of Freedom at Porto Rico, some 150 to 400 persons. Premier S. P. Tolmie said he was seeking the co-operation of the Federal Government in restraining this movement.

At the present time, Premier Tolmie received a telegram from Independent Doukhobors of Thrums and Castlegar, who declared that their brethren at Porto Rico were exiled, short of food and facing serious privation. To them the premier replied that the Sons of Freedom at Porto Rico were in no sense exiled, that they would return to their former homes or work so long as they obeyed the laws of the country.

"They are not under any restrictions which do not apply to all citizens of the province," he said. "If unusual cases of privation exist we are prepared to relieve them, but we do not propose to condone any violation of the laws of this country," the premier stated.

Pontoon Bridge Explodes

Three Killed When Punt On German Structures Ignites

Bremen, Germany.—Three persons were killed and many injured and glass in windows in the vicinity broken when the Kaiser Bridge pontoon exploded. It was thrown several hundred feet into the air, falling on the stern of the motor yacht City of Bremen and crushing it.

The inner compartments of the pontoon had been newly painted with a paint producing an explosive gas while drying. It was reported that a man who was among the killed, lit a cigar accidentally igniting the gas. A fourth body, that of a 14-year-old boy, was later found in the Weser River.

Will Make Four Speeches

Washington.—Four speeches will be delivered by Prime Minister Ramsay MacDonald during the course of his Canadian trip. The premier is planning to appear in the cities of Toronto, Ottawa, Montreal and Quebec. From Quebec, he sails for England on October 25.

U.S. Accepts Invitation

Washington.—Coinciding with the departure of Premier Ramsay MacDonald from the capital, the United States Government formally accepted the invitation of Great Britain to take part in the five-power naval limitations conference.

There are more than 700,000 privately owned cars on British railways.

Louis Petish, former resident of Blairmore, had a narrow escape from death last week when thrashing at Hewitt's, about fourteen miles north of Cowley. In some manner, the sleeve of his smock became entangled in the belt and in a flash the belt was wrapped around his body and neck several times. With all possible

speed, the engine was stopped and the belt had to be cut several places before the unconscious man could be liberated. He was rushed to the Hillcrest hospital, where he is rapidly mending.

A dance will be held in the Union hall at Frank tomorrow night.

Train up a housemaid to the way she should go, and the first thing you know she's gone.

Mrs. W. Fraser, of Coleman, who for some time has been seriously ill, is now considerably on the mend.

The *Blairmore Times* remarks: "A heathen country is one in which the payroll can be transported without an armored car."

We charge heredity with our faults, environment with our mistakes, and as an offset credit ourselves with all our virtues.

Miss Alice Hornquist left for Edmonton by Sunday night's train, where she enters upon a course in nursing.

Brevity today is the soul of the frock business. If a little boy wants to hide behind his mother's skirt today, he has to get in his high chair to do it.

A dance will be held in the Lundbreck hall on Friday night, October the 25th, under auspices of the Lundbreck hall committee. Altermatt's orchestra. Proceeds for the Lundbreck church.

An exchange remarks: Shorter days mean longer nights, and the latter are much preferred by certain of our society who go out just when ordinary folks are going to bed, which is considered by them good form.

The girls of the S.T.G.G. will hold a dance in the Union hall at Hillcrest on the night of Thursday, October the 31st, in celebration of Halloween. Music will be furnished by the Hillcrest Knives.

A Halloween dance will be held in the L.O.O.F. hall at Bellevue on the night of Friday, November 1st, under auspices of Ray of Hope Rebekah Lodge, with the Altermatt orchestra in attendance. Dancing will commence at 9:30 p.m.

Mrs. Susannah Evans, of Calgary, is visiting old friends in town. Some time ago, Mrs. Evans was obliged to have a leg amputated below the knee, and is now getting along nicely on an artificial limb with the assistance of a crutch. We are all glad to see her looking so well.

Ernie Whiteside had been paired in the Vancouver golf club tournament. The other was a meek man, introduced simply as Dr. Pywell. At the first bunker Ernie took a long silent look at his ball, then turned and exclaimed: "Pardon me, doctor; but before I tackle this lie, would you mind telling me if you're at D.D. or an M.D."—Strathmore Standard.

Mr. and Mrs. A. N. Cox, of Lundbreck, were visitors here on Monday.

The local lodge of Pythian Sisters will hold their annual bazaar on Wednesday, November 20. [tn14]

The members of the local lodge of Pythian Sisters will hold a Halloween whist drive and dance in the Lodge Hall on the night of Wednesday, October 30. Admission 50 cents. Keep this date open and look forward to a real good time. [to24]

MR. MELVILLE ANDERSON, of Anderson & McLean, eyesight specialists, of Calgary, will be at the Bellevue Hospital on Tuesday, October 29th, and at the Greenhill Hotel, Blairmore, on Wednesday, the 30th. Twenty years experience in Calgary and regular monthly visits assure satisfaction. [o17-24]

Improvements on the Crows' Nest highway through Hosmer have been effected. These include a cut through the old Great Northern embankment west of the Hosmer bridge and straightening and widening the road from there to the bridge. This eliminates a sharp blind turn at this point. On the east side of the bridge the road goes straight off the bridge and up through the old townsite in easy grades and with a slight curve, which eliminates a number of sharp right-angle turns in the old road. Just east of Hosmer, a formerly dangerous and narrow portion of the road has been fenced and three C.P.R. poles have been moved inside the railway fence, making possible a wide, safe road at this point.
